ORIGO PRO WATCH

## GREAT GIFT BUYS

MAKE THEM THINK YOU SPENT A FORTUNE

**ORIGO PRO WATCHES** Origo's Guide Pro Series Fishing Pro and Hunting Pro watches are two of the coolest, most functional watches made for sportsmen to come along. They provide weather info, temperature, best hunting and fishing times, moon phases, tide charts and a digital compass, and they can even store ballistic info. Oh yeah, they also tell time. ([origowatch.com](http://origowatch.com))

**PETERS AMMO** Remington and Gander Mountain have teamed up to bring this classic ammo back to store shelves. Shotgun offerings include a slug round and target loads (\$6), while on the rifle front there's a .22 LR (\$2). Centerfire rounds run the gamut from .243 to 7mm Rem. Mag. (\$14-\$26). ([gandermountain.com](http://gandermountain.com))

**SHEFFIELD'S RHINO SKINNING KNIFE** No sharpening is necessary with the Rhino Skinning Knife, which lets you quickly change a dull blade in the field. Extra blades are held inside the handle, and a thumb-pressure plate provides additional control. ([greatrocksaaw.com](http://greatrocksaaw.com))

**XTREME CHARGE** Don't let a dead battery keep you stranded in camp. This compact 12-volt battery charger works from any outlet and utilizes Pulse technology for optimum charge delivery and long-term battery maintenance. ([pulsetech.com](http://pulsetech.com))
